Re: Defining the Student Government Mission Statement for the 2020-2021 Academic Year

As discussed during the annual Student Government training and initiatives session on Sunday, October 4, 2020, the Student Government has decided that it is important to define a mission statement for the 2020-2021 academic year.

By defining such a phrase, the Student Government will be better equipped to serve the student body as it is committed to doing so. This mission statement will be the foundation of the work of the Student Government and shall stand as a grounding point.

The 2020-2021 Student Government Mission Statement shall be as follows:

“We believe in cultivating the best possible student experience at Lake Superior State University. By listening to, speaking for, and representing the diverse voices of all of our students, we advocate for students’ wants, needs, and beliefs.”

Respectfully submitted on Thursday, October 8, 2020.
Keegan Hoose, President of Student Government
